

DRE - Torque package Clamping chuck with torque

Available for all hand-operated chucks:
DGS, UFS, DGA and UFA

For the reliable clamping of thin-walled components

VK systems

Application

Measurement technology

Precision mechanics

Compatibility

DGS, UFS, DGA and UFA

Torque (optional)

0,4 Nm - 2 Nm

1,0 Nm - 10 Nm

The key points in brief

- Upgrade simply and fast
- Additional dowel pin for rapid adjustment
- Compatible with all chucks (DGS, UFS, DGA and UFA)
- Torque from 0.4 Nm
- Torque - coated ring (hard anodized)

In detail

1. Chuck (DGS, UFS, DGA or UFA)
2. Torque - hard anodized ring
3. Adaptation of torque - chuck
4. Bend torque - wrench
5. Test and configuration devices torque
